### ABOUT ALBERTINI MANUFACTURING & SUPPLY INC

We specialize in overhauling HVAC equipment and providing equipment redesigns/retrofits for the transportation industry.

Our extensive 40 years of experience in the industry will guarantee quality workmanship and superior customer service along with dependable on-time delivery, which is our foremost commitment.

### OVERHAUL, MANUFACTURING AND ENGINEERING SERVICES

Our technicians are extensively trained in overhauling, testing and inspecting HVAC equipment for transit applications. We have the ability and experience to provide mechanical, electrical and refrigerant retrofits to all types of HVAC equipment.

#### We overhaul, service and test the following HVAC equipment:

- Air conditioning compressors
- Condenser and evaporator units
- Rooftop mount HVAC units
- HVAC control panels
- Condenser & Evaporator Coils
- Electric motors

We provide manufacturing and engineering support for equipment that has been discontinued by the OEM's. We manufacture many compressor parts that our clients still have a need for but were no longer able to procure from the OEM.

In addition to manufacturing obsolete parts, we have the capabilities to redesign systems or parts that are not functioning as intended and then implement a solution by manufacturing new parts or control systems.

### REPLACEMENT PARTS FOR HVAC SYSTEMS

We carry a complete line of replacement parts and supplies for transportation HVAC systems. Some of our products include:

- New Compressors
- Internal compressor parts
- Evaporator and condenser coils
- Expansion Valves
- Service/Compressor Valves
- Filter Driers
- AC and DC motors
- Air Filters
- Compressor Oil
- Refrigerants
- Electrical components for HVAC systems
- HVAC tools

### ALBERTINI MANUFACTURING & SUPPLY'S ADVANTAGES

- We guarantee high quality products by complying with ISO9001 Quality Assurance Program.
- We can accommodate your most demanding, and sometimes critical, delivery schedules.
- Extensive experience serving large transit authorities and the stringent quality they require.
- Exceptional customer service along with extensive knowledge of HVAC systems.
- Our extremely cost effective pricing allows us to beat out our competition almost every time.
